

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****[Docket No. FRA 2021–0037]****Surface Transportation Project Delivery Program; California High-Speed Rail Authority Audit Report****AGENCY:** Federal Railroad Administration (FRA), U.S. Department of Transportation (DOT).**ACTION:** Notice.

SUMMARY: The Surface Transportation Project Delivery Program (STPD Program), often referred to as the “NEPA Assignment Program,” allows a State to assume FRA’s responsibilities for Federal environmental review, consultation, and compliance under the National Environmental Policy Act (NEPA) and other Federal environmental laws, for railroad projects. In accordance with the July 23, 2019, memorandum of understanding (section 327 MOU) between FRA and the California High-speed Rail Authority (CHSRA), CHSRA assumed the environmental review process, in lieu of FRA. The STPD Program mandates annual audits by FRA for the first four years of a State’s involvement in the STPD Program, ensuring CHSRA’s compliance with program requirements. This notice finalizes FRA’s findings of the first-year audit of CHSRA participation in the STPD Program.

FOR FURTHER INFORMATION CONTACT: Andréa Martin, Senior Environmental Protection Specialist, Office of Railroad Policy and Development (RPD), telephone: (202) 493–6201, email: Andrea.Martin@dot.gov; or Marlys Osterhues, Chief Environment and Project Engineering, RPD, telephone: (202) 493–0413, email: Marlys.Osterhues@dot.gov.

SUPPLEMENTARY INFORMATION:

Electronic Access: An electronic copy of this notice and all comments received may be downloaded from the docket page for FRA–2021–0037 at www.regulations.gov.

Background: FRA’s annual audits are the primary mechanism to: (1) Oversee CHSRA’s compliance with the STPD Program, the section 327 MOU, and applicable Federal laws and policies under NEPA; (2) determine CHSRA’s attainment of the performance measures identified in part 10 of the section 327 MOU; and (3) collect information needed for the Secretary of Transportation’s annual report to Congress pursuant to 23 U.S.C. 327(i).

FRA will conduct three more annual audits consistent with 23 U.S.C. 327(g)

and part 11 of the section 327 MOU. FRA must present the results of each audit in a report and make the draft report available for public comment in the **Federal Register**, before finalizing.

FRA received one response during public comment period between April 21, 2021, and May 21, 2021. The comment, available in the docket, was submitted by the American Road and Transportation Builders Association and outlined its general support for the STPD Program. FRA considered this comment and determined that it did not require changes in the content of the draft report. This notice includes the final version of the audit report.

Surface Transportation Project Delivery Program Audit of the California High-Speed Rail Authority: December 8–10, 2020**Executive Summary**

This report summarizes the results of FRA’s first audit of the CHSRA’s conduct of its environmental review responsibilities under 23 U.S.C. 327, in accordance with the section 327 MOU executed July 23, 2019, between CHSRA and FRA.

To carry out its audit responsibilities under the section 327 MOU, FRA formed a team (Audit Team) in April 2020. The Audit Team consisted of NEPA subject matter experts (SMEs) from FRA’s environmental and project management divisions and the John A. Volpe National Transportation Systems Center. In addition, FRA designated a Senior Environmental Protection Specialist to serve as a NEPA Assignment Program liaison to CHSRA. The Audit Team reviewed certain NEPA project documentation completed by CHSRA during the first year of the NEPA Assignment Program, and CHSRA’s self-assessment of its NEPA Assignment Program. In addition, the Audit Team reviewed documents related to quality assurance/quality control (QA/QC) and conducted interviews with relevant CHSRA staff between December 8 and 10, 2020.

The purpose of this report is to describe the results of the audit. Overall, the Audit Team found that CHSRA is carrying out the responsibilities it has assumed and complies with the provisions of the section 327 MOU.

Background

The STPD Program, codified at 23 U.S.C. 327, allows a State to assume FRA’s environmental responsibilities for review, consultation, and compliance for railroad projects. When a State assumes these Federal responsibilities, the State becomes solely liable for

carrying out the responsibilities it has assumed, in lieu of the FRA. CHSRA published its application under the STPD Program on November 9, 2017 and made it available for public comment for 30 days. After considering public comments, CHSRA submitted its application to FRA on January 31, 2018. The application served as the basis for developing an MOU identifying the responsibilities and obligations that CHSRA would assume.

FRA published a notice of the draft MOU in the **Federal Register** on May 2, 2018, with a 30-day comment period to solicit the views of the public and Federal agencies. After the close of the comment period, FRA and CHSRA considered comments and proceeded to execute the MOU. On July 23, 2019, CHSRA assumed FRA’s responsibilities under NEPA, and the responsibilities for NEPA-related Federal environmental laws described in the section 327 MOU.

Section 327(g) requires the Secretary to conduct annual audits during each of the first four years of State participation. Audits are the primary mechanism for FRA to oversee CHSRA’s compliance with the provisions set forth in the section 327 MOU. FRA’s annual audits, conducted pursuant to 23 U.S.C. 327(g), will be the primary mechanism to: (1) Determine the State’s compliance with this MOU and applicable Federal laws and policies; (2) confirm the State’s attainment of the performance measures identified in part 10 of the section 327 MOU; and (3) collect information needed for the Secretary of Transportation’s annual report to Congress pursuant to 23 U.S.C. 327(i). FRA will conduct three more annual audits consistent with 23 U.S.C. 327(g) and part 11 of the section 327 MOU. FRA will present the results of each audit in a report and make the report available for public comment in the **Federal Register**, before finalizing.

Scope and Methodology

Consistent with the section 327 MOU, the Audit Team examined a sampling of CHSRA’s NEPA project files; CHSRA’s self-assessment report; and CHSRA policies, guidance, and manuals relating to NEPA responsibilities. The scope of the project file portion of the audit included a review of six reexaminations for previously approved Final Environmental Impact Statements (EISs) and one Final EIS/Record of Decision (ROD), representing all projects in process or initiated after the section 327 MOU’s effective date through June 30, 2020. In conducting the audit, and to determine compliance with the section 327 MOU, the FRA Audit Team focused on objectives related to six NEPA

Assignment Program Elements: Program management, documentation and records management, QA/QC, training, performance measurement, and legal sufficiency. Each NEPA Assignment Program Element is described further below.

The Audit Team interviewed 11 CHSRA staff, in one of CHSRA's three regional offices and at its headquarters office. In addition, the Audit Team interviewed one staff member from the U.S. Environmental Protection Agency (EPA). The Audit Team invited CHSRA staff, middle management, counsel, and executive management to participate in the interview process to ensure representation of a diverse range of staff expertise, experience, and program responsibility.

The Audit Team compared the procedures outlined in CHSRA environmental manuals and policies to the information obtained during staff interviews and project file reviews to evaluate CHSRA's performance against its documented procedures. The Audit Team documented observations under the six NEPA Assignment Program Elements.

Audit Results

Overall, CHSRA has carried out the environmental responsibilities assumed through the section 327 MOU and the Audit Team found that CHSRA is complying with the section 327 MOU.

Program Management

Consistent with part 4 of the section 327 MOU, CHSRA has developed and implemented the updated Environmental Policies and Procedures Handbook, Environmental Compliance Program Manual, a QA/QC Plan, and the NEPA Assignment Training Course. CHSRA has also conducted the required self-assessment.

CHSRA has incorporated the NEPA Assignment Program into its overall project development process included in CHSRA's environmental manuals and policies. CHSRA has also created a NEPA assignment team in its headquarters office to support the new responsibilities under the NEPA Assignment Program. CHSRA staff at the headquarters office responsible for ensuring NEPA Assignment responsibilities are fulfilled review projects for compliance with assigned environmental laws and regulations independently from those responsible for developing the NEPA and related documentation, as required in part 3 of the section 327 MOU.

CHSRA environmental staff at the three regional offices coordinate their NEPA related project-work with

headquarters staff through NEPA Coordinators. Prior to assuming responsibilities under the NEPA Assignment Program, CHSRA regional staff reported to their regional office. However, following assumption of NEPA responsibilities, CHSRA hired a NEPA Assignment Manager located in the headquarters office who is responsible for overseeing CHSRA's policies, manuals, guidance, and training under the NEPA Assignment Program. CHSRA also has assigned a team of attorneys to advise on the environmental review process. This team includes CHSRA in-house counsel as well as outside counsel who advise on issues relate to the assigned responsibilities.

Since the NEPA Assignment Program became effective, CHSRA staff noted that their relationship with resource agencies has not changed, and the overall environmental and consultation process has continued without significant change. FRA's Audit Team's review of project files supports this conclusion.

Documentation and Records Management

Between July 23, 2019, and June 30, 2020, CHSRA made 22 auditable NEPA actions. Employing judgmental sampling, the Audit Team reviewed seven NEPA project files, including six reexaminations of previously approved Final EISs and one combined Final EIS/ROD. These projects represented a sampling of CHSRA environmental review efforts in process or initiated after the section 327 MOU's effective date through June 30, 2020, covering a range of resource considerations and agency coordination requirements. The Audit Team found that CHSRA maintained a complete electronic record, including all NEPA-related documentation.

The Audit Team recognized several CHSRA efforts to ensure consistency of project documentation through CHSRA's use of an accessible file database. Interviews with CHSRA staff indicated that the regional staff consistently manage project files, including working files. In addition, CHSRA uses a software program to document public and resource agency comments, allowing CHSRA to track comments, responses, and resolution.

Quality Assurance/Quality Control

Under part 10.2.B of the section 327 MOU, CHSRA has agreed to carry out regular QA/QC activities to ensure the assumed responsibilities are conducted in accordance with applicable law and the section 327 MOU. The Audit Team

noted that CHSRA has implemented a QA/QC program where environmental staff in the three regions coordinate with the NEPA assignment team in the headquarters office. The NEPA assignment team is responsible for reviewing all NEPA documentation and technical reports to ensure compliance. CHSRA staff also have access to SMEs for various environmental resources and regulations. During interviews, CHSRA noted that the NEPA assignment team acts independently to provide unbiased and objective reviews of work products. The Audit Team also found that regional staff understands how to implement the QA/QC process throughout the environmental review process.

During subsequent audits, the FRA Audit Team will require that supporting QA/QC documentation associated with project files be provided to FRA. This will allow the Audit Team to confirm QA/QC measures are being fully implemented for the projects under review. The Audit Team also recommends that CHSRA review a judgmental or random sampling of projects between FRA's annual audits to check compliance and identify potential improvements that can be made to the QA/QC process.

Training Program

CHSRA committed to implementing training necessary to meet its environmental obligations under the section 327 MOU. The training covers all topics related to CHSRA's responsibilities under NEPA assignment. Based on interviews and a review of training documentation and records, all CHSRA staff received the training in accordance with the training plan after the MOU was executed.

The FRA Audit Team recommends that CHSRA expand its training plan to include additional training opportunities. This training could include formal or informal training with State and Federal resource agencies in addition to the regularly scheduled agency coordination meetings.

Performance Measures

In accordance with part 10.1.1 of the section 327 MOU, FRA and CHSRA have established performance measures that CHSRA will seek to attain and that FRA will consider during FRA's audits.

CHSRA is still in the early stages of developing metrics to track attainment of performance measures outlined in the section 327 MOU. However, based on results of the audit review and interviews, the FRA Audit Team found that CHSRA is implementing the performances measures. CHSRA

environmental leadership staff indicated they will continue to implement the performances measures found in part 10 of the section 327 MOU.

Legal Sufficiency

CHSRA conducts a legal sufficiency review at various stages of the environmental review process, consistent with existing internal procedures. This review is generally conducted by outside counsel and CHSRA attorneys. CHSRA attorneys are responsible for making the final written determination regarding legal sufficiency of EISs prior to their publication.

Finalizing the Report

FRA published the draft version of this report in the **Federal Register** on April 21, 2021, (86 FR 20787), and made it available for public review and comment for 30 days in accordance with 23 U.S.C. 327(g). FRA received one response to the **Federal Register** notice during the public comment period for the draft report, from the American Road and Transportation Builders Association. This comment outlined its general support for the STPD Program. FRA considered this comment and determined that it did not require changes in the content of the draft report. This is FRA's final version of the audit report.

Issued in Washington, DC.

Amitabha Bose,

Deputy Administrator.

DEPARTMENT OF TRANSPORTATION

Maritime Administration

[Docket No. MARAD-2021-0181]

Coastwise Endorsement Eligibility Determination for a Foreign-Built Vessel: OASIS (Motor); Invitation for Public Comments

AGENCY: Maritime Administration, DOT.
ACTION: Notice.

SUMMARY: The Secretary of Transportation, as represented by the Maritime Administration (MARAD), is authorized to issue coastwise endorsement eligibility determinations for foreign-built vessels which will carry no more than twelve passengers for hire. A request for such a determination has been received by MARAD. By this notice, MARAD seeks comments from interested parties as to any effect this action may have on U.S. vessel builders or businesses in the U.S. that use U.S.-

flag vessels. Information about the requestor's vessel, including a brief description of the proposed service, is listed below.

DATES: Submit comments on or before September 16, 2021.

ADDRESSES: You may submit comments identified by DOT Docket Number MARAD-2021-0181 by any one of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Search MARAD-2021-0181 and follow the instructions for submitting comments.
- *Mail or Hand Delivery:* Docket Management Facility is in the West Building, Ground Floor of the U.S. Department of Transportation. The Docket Management Facility location address is: U.S. Department of Transportation, MARAD-2021-0181, 1200 New Jersey Avenue SE, West Building, Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except on Federal holidays.

Note: If you mail or hand-deliver your comments, we recommend that you include your name and a mailing address, an email address, or a telephone number in the body of your document so that we can contact you if we have questions regarding your submission.

Instructions: All submissions received must include the agency name and specific docket number. All comments received will be posted without change to the docket at www.regulations.gov, including any personal information provided. For detailed instructions on submitting comments, or to submit comments that are confidential in nature, see the section entitled Public Participation.

FOR FURTHER INFORMATION CONTACT:

James Mead, U.S. Department of Transportation, Maritime Administration, 1200 New Jersey Avenue SE, Room W23-459, Washington, DC 20590. Telephone 202-366-5723, Email James.Mead@dot.gov.

SUPPLEMENTARY INFORMATION: As described in the application, the intended service of the vessel OASIS is:

—*Intended Commercial Use of Vessel:*

“Luxury overnight charters in the Puget Sound and San Juan Islands using the 3 staterooms onboard”

—*Geographic Region Including Base of Operations:* “Washington.” (Base of Operations: Seattle, WA)

—*Vessel Length and Type:* 70' Motor

The complete application is available for review identified in the DOT docket as MARAD 2021-0181 at <http://www.regulations.gov>. Interested parties may comment on the effect this action

may have on U.S. vessel builders or businesses in the U.S. that use U.S.-flag vessels. If MARAD determines, in accordance with 46 U.S.C. 12121 and MARAD's regulations at 46 CFR part 388, that the employment of the vessel in the coastwise trade to carry no more than 12 passengers will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, MARAD will not issue an approval of the vessel's coastwise endorsement eligibility. Comments should refer to the vessel name, state the commenter's interest in the application, and address the eligibility criteria given in section 388.4 of MARAD's regulations at 46 CFR part 388.

Public Participation

How do I submit comments?

Please submit your comments, including the attachments, following the instructions provided under the above heading entitled **ADDRESSES**. Be advised that it may take a few hours or even days for your comment to be reflected on the docket. In addition, your comments must be written in English. We encourage you to provide concise comments and you may attach additional documents as necessary. There is no limit on the length of the attachments.

Where do I go to read public comments, and find supporting information?

Go to the docket online at <http://www.regulations.gov>, keyword search MARAD-2021-0181 or visit the Docket Management Facility (see **ADDRESSES** for hours of operation). We recommend that you periodically check the Docket for new submissions and supporting material.

Will my comments be made available to the public?

Yes. Be aware that your entire comment, including your personal identifying information, will be made publicly available.

May I submit comments confidentially?

If you wish to submit comments under a claim of confidentiality, you should submit the information you claim to be confidential commercial information by email to SmallVessels@dot.gov. Include in the email subject heading “Contains Confidential Commercial Information” or “Contains CCI” and state in your submission, with specificity, the basis for any such confidential claim highlighting or denoting the CCI portions. If possible, please provide a summary of your submission that can be made available to the public.
